DOMÄNE WACHAU

The Domäne Wachau is situated in the Wachau Valley in Austria. Primary rock soil, an exceptional climate and steep slopes terraced with dry stone walls overlooking the Danube River have great influence on the tremendous quality of the Wachau wines. Led by winery director and Master of Wine Roman Horvath and winemaker Heinz Frischengruber, Domäne Wachau has achieved recognition as one of the leading and most innovative wineries of the region. Conscientious viticultural practices and handpicked grapes result in terroir-driven wines.

TERRASSEN

Grapes are selected from tiny vineyard parcels and small plots on steep terraces throughout the Wachau to yield wines with superb varietal character and typical regional expression.

SINGLE VINEYARDS

The unique and individual terroir of the famous Wachau "crus" is the foundation for the complexity, depth and inimitable character of these single-vineyards wines.

This medium-bodied dry wine category excels with bright freshness, agility and highly nuanced character. Classic white wines from mineral-rich soils that are perfect accompaniments to fine cuisine or simply enjoyed on their own!
